

BETTER THAN LIVE!

HEAD AND NECK ROBOTIC SURGERY

THYROID AND PARATHYROID SURGERY

**2ND HEAD AND NECK SURGERY COURSE,
TOTALLY IN 3D**

Course Directors: G. Succo - N. Palestini
Honorary President: G. Gasparri

FPO IRCCS - Candiolo Cancer Institute (TO)
January 28-30, 2019

Under the Auspices

Dear Colleagues,

It is with great pleasure that we would like to introduce you to this Second Head and Neck Surgery Course, presented entirely in 3D. This powerful technological development in our field, as well as in other fields of surgery, is undoubtedly influencing not so much the surgical procedure itself but the way we perform as surgeons today.

Greater attention to detail, minimal invasiveness, full sharing of all phases of the operation, video tutoring of colleagues in training: these and other aspects represent the everyday reality in many operating rooms. Moreover, what happens in the operating field can now be filmed and reviewed in 4K and 3D technology, i.e. maximum video fidelity coupled with a depth of field that in the past only the first surgeon could have.

"Better than Live" is a slogan but it also presents a real challenge: its aims are not just filming and showing surgery better than ever before, but also demonstrating how the execution of an operation under the control of 3D monitors can produce a decisive increase in minimally invasive procedures in a short time.

The second Course will be focused on two main topics: robotic head and neck surgery and all types of surgery of thyroid and parathyroid glands. Both are fields in rapid and continuous evolution, where technologic and therapeutic improvements are leading to interesting innovations. In particular robotic surgery is opening new frontiers in mini-invasive transoral surgery as well as in open neck surgery, including thyroid surgery.

All types of approach, conventional, mini-invasive, robotic and robotic-like ones will be carried out by the Italian and the International Faculty. The formula is simple: two simultaneous live surgery sessions from the operating rooms, video-sessions with recorded contributions, frontal lectures and tumor board case discussion. In parallel a robotic cadaveric dissection will be carried out by the new revolutionary Da Vinci single port robot. The delegates will be so able to observe the same procedures carried out by Da Vinci xi (live surgery) and Da Vinci single port (cadaveric dissection) assessing relative advantages and disadvantages.

The Faculty is composed of greatly experienced surgeons at a very detailed level.

A warm welcome to them from our scientific community! We hope to see you in Turin next January.

Giovanni Succo

Nicola Palestini

► **MONDAY, JANUARY 28TH**

08.00 – 09.00
09.00

Registration
Course introduction

Cappa Room

09.15 – 12.30

Video sessions in 2D/3D

Robotic – Robotic-like Surgery

Chairmen: G. Pecorari, R. Sorrentino

P. Aluffi Valletti, M. Ansarin, P. Capaccio, E. Crosetti, C. Holsinger,
R. Leemans, S. Magnuson, G. Molteni, F. Montevecchi,
G. Pecorari, R. Pellini, R. Sorrentino, G. Succo, G. Tirelli

Library Room

09.15 – 11.00

Video sessions in 2D/3D

Thyroid – Parathyroid Surgery

Chairmen: M. Bossotti, T. Pazziaia

A. Bertolin, M. Bussi, C.R. Cernea, M. Magnani,
A. Marchesi, C. Miani, N. Palestini, M. Testini

11.00 – 12.30

Round Table

Remote-Access Thyroid Surgery

Chairmen: M. Testini, G. Giugliano

The Transaxillary Approach - **M. Piccoli**
The Face-Lift (Retroauricular) Approach - **D. Hartl**
*Discussants: G. Andry, M. Bussi, C.R. Cernea,
C. Miani, L. Pezzullo*

12.45

Lunch

International Forum

14.00

Welcome Address - **A. Agnelli**, President of FPO IRCCS

Chairmen: R. Albera, G. Gasparri

14.45 – 15.30

Face to Face

Moderator: C. Vicini

Multiport vs Single Port Transoral Robotic Surgery: Present and Future
S. Magnuson vs C. Holsinger

► **MONDAY, JANUARY 28TH**

15.30 – 15.45

Presenter: G. Spriano

Opportunities and Expectations of a H/N Cancer Awareness Campaign:
The Make Sense Campaign - **R. Leemans**

15.45 – 16.15

Presenter: G. Paludetti

The Current Role of Neuromonitoring in Thyroid Surgery: Focus on
International Guidelines - **C.R. Cernea**

16.15 – 16.45

Presenter: M. Bussi

Differentiate Thyroid Cancer: Gaining Ground Through Continuing
and Increasing Multidisciplinary Interaction - **G. Andry**

16.45 – 17.15

Presenter: D. Deandreis

Central Neck Dissection for Papillary and Medullary Thyroid
Carcinomas: When and How - **D. Hartl**

17.15 – 17.45

Presenter: M. Radici

HPV in Head and Neck Cancer: European Perspectives - **W. Golusinski**

17.45 – 18.30

Presenter: C.A. Leone

Current Role of TOUSS for Management of UADT Tumours
M. Fernandez-Fernandez

18.30 – 19.00

Presentation of Cases to be Carried out the Day After
N. Bonelli, M. Cerutti, A. Caracciolo

Final Remarks

P. Nicolai, M. Testini

► **TUESDAY, JANUARY 29TH**

09.00 – 15.30

Live Surgery

OR n° 1

Chairmen: M.E. Amasio, L. Tubino

Total Thyroidectomy - **op. R. Bellantone**

Neuro-Monitoring During Thyroidectomy - **op. G. Dionigi**

Total Thyroidectomy - **op. N. Palestini**

Hemi-Thyroidectomy - **op. G. Giugliano**

OR n° 2

Chairmen: F. Montevercchi, P. Aluffi Valletti

TORS for Lateral Oropharyngectomy - **op. S. Magnuson**

Relive TORS for OSAS - **op. C. Vicini**

TORS for Base of Tongue Resection - **op. C. Holsinger**

Surgical Lab

Chairmen: E. Paganelli, M. Ansarin

Esoscopic Robotic-Like Surgery - **op G. Peretti**

Relive TORS by Da Vinci Single Port for Lateral Oropharyngectomy

op. C. Holsinger

Relive TORS by Da Vinci Single Port for Base of Tongue Resection

op. C. Holsinger

13.00 – 13.30

Presenter: P. Ruscito

A Video Review of Critical Maneuvers in Transoral Video Assisted Thyroidectomy (TOETVA) - **G. Dionigi**

14.00

Lunch

Cappa Room

Chairman: C.F. Gervasio

16.00 – 16.30

Presenter: G. Spriano

A Video Review of Critical Maneuvers in Transoral Robotic Approach to Parapharyngeal Space - **M. Ansarin**

16.30 – 17.00

Presenter: C. Grandi

Management of the Neck in TORS - **G. Spriano**

17.00 – 18.30

H/N Tumor Board – Oropharynx

Case presenter: E. Crosetti

A. Deganello, E. Delmastro, A. Fornari, D. Galizia, M. Magnano, M. Merlano, L. Pignataro

Library Room

Thyroid Surgery

Chairman: E. Ghigo

16.00 – 16.15

Presenter: N. Palestini

The Role and Impact of “Rete Oncologica del Piemonte e Valle d’Aosta” in the Management of Thyroid Cancer: an Overview - **O. Bertetto**

16.15 – 16.45

Presenter: A. Camaioni

Surgical Strategy for Substernal Goiter - **M. Testini**

16.45 – 18.45

Round Table

Differentiated Thyroid Carcinoma

Chairmen: G. Gasparri, M. Piemonte

Evolution of the Guidelines on Surgical Treatment - **R. Bellantone**

Radio-Induced Thyroid Cancers - **E. Brignardello**

Treatment of the Airway Invasion - **C. Mossetti**

Post-Operative Radioiodine Treatment - **R. Pellerito**

Treatment Options for Unresectable Advanced/Recurrent Disease

F. Orlandi

Discussants: G. Canale, P. Caraci, D. Hartl, P. Limone, L. Pezzullo, R. Spinato

18.45 – 19.15

Presentation of Cases to be Carried out the Day After
G. Arrigoni, N. Bonelli, P. Guarino

Final Remarks

F. Chiesa, F. Orlandi

► **WEDNESDAY, JANUARY 30TH**

09.00 – 15.00

Live Surgery

OR n° 1

Chairmen: M. Magnani, V. Ferrero

Mini-Invasive Parathyroidectomy - **op. N. Palestini**

Total Thyroidectomy - **op. M. Testini**

Mini-Invasive Parathyroidectomy - **op. MC.P. Lombardi**

OR n° 2

Chairman: G. Tortoriello

3Des for Teaching Surgery - Tonsillectomy - **op. Resident + G. Succo**

TORS for Base of Tongue Resection Extended to the Larynx

op. M. Ansarin

Relive Transaxillary Robotic Thyroidectomy - **op. M. Piccoli**

Surgical Lab

Chairmen: F. Vico, C. Vicini

TOUSS for Oropharyngeal/Hypopharyngeal Surgery

op. M. Fernandez -Fernandez

Relive TORS by Da Vinci Single Port for Laryngeal/Hypopharyngeal Surgery - **op. C. Holsinger**

14.00

Lunch

Cappa Room

Chairman: V. Saita

15.00 – 15.30

The 3Des (3D Esoscopic Surgery): an Useful Training for TORS

G. Succo

15.30 – 16.00

Presenter: M. Barbara

Usefulness of TORS in Treatment De-Intensification for

HPV+ Oropharyngeal Cancer - **M. Benazzo**

16.00 – 17.30

H/N Tumor Board – Larynx

Case presenters: G. Succo, A. Manca

M. Airoidi, A. Bertolin, I. Bertotto, A. Cavalot, P. Gabriele,

G. Peretti, R. Puxeddu

Library Room

15.00 – 17.00

Parathyroid Surgery

Chairman: E. Arvat

Round Table

Primary Hyperparathyroidism

Chairmen: P. Pisani, F. Orlandi

Biochemical Diagnosis and Indications to Surgical Treatment

A. Piovesan

Preoperative Localization Tests - **D. Deandreis**

Targeted Exeresis vs Bilateral Exploration - **L. Pezzullo**

Intraoperative PTH Assessment - **G. Mengozzi**

Persistent and Recurrent Primary Hyperparathyroidism - **C.P. Lombardi**

Parathyroid Carcinoma - **M. Iacobone**

Discussants: M. Bossotti, A. Codegone, M. Freddi, B. Mullineris,

R. Rossetto Giaccherino, P. Scapoli

17.00 – 17.30

Presenter: E. Arvat

Surgery for Secondary and Tertiary (Renal) Hyperparathyroidism:

Indications and Technique - **G. Gasparri**

Final Remarks

G. Cantù

Info

► GENERAL INFO

The course is restricted to 150 delegates

► COURSE DIRECTORS

Giovanni Succo - Nicola Palestini
Head and Neck Oncology Service
FPO IRCCS
Candiolo Cancer Institute

► SCIENTIFIC SECRETARY

Erika Crosetti
Head and Neck Oncology Service
FPO IRCCS
Candiolo Cancer Institute

► ORGANIZING SECRETARIAT

Stilema Srl
Via Cavour, 19
10123 Torino (Italy)
email: organizzazione@stilema-to.it

► REGISTRATION

Registration for the Congress can be made using the online registration service at the following address: www.stilema-ecm.it

The registration fees are (VAT included):
Consultant € 250,00
Resident/Fellow € 200,00

► CME

The ministerial procedure has been activated for the accreditation of the Course, as indicated by the Italian Commission for Continuing Medical Education (ECM).

► COURSE VENUE

FPO IRCCS
Istituto Oncologico di Candiolo
Strada Provinciale 142 km 3,95
Candiolo, Torino (Italy)

► HOW TO REACH CANDIOLO

For those driving from A4 Torino-Trieste, take the Tangenziale Sud, then the Pinerolo exit. Take the Candiolo exit , turn left and continue to Candiolo and then follow the signpost for IRCC.

For those driving from A21 Torino-Piacenza, take the Pinerolo exit. Take the Candiolo exit, turn left and continue to Candiolo and then follow the signpost for IRCC.

If you have a navigator enter the following address as your destination:
Candiolo (TO)
Strada Provinciale 142
crossroads Strada Statale 23.
